

Dear FCC,

I am a subscriber to XM Radio and a very happy customer I might add. Satellite radio provides variety and quality that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. XM Satellite offer an incredible variety of music, news and local weather and traffic, something that is quite useful to me as a listener -COMERCIAL FREE. I am an American and I have a right to choice and I would like for you to assure that right for me.

I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve.
